

Jane Skrypnek would be a leader in whatever field she chose.

Thankfully she chose journalism.

Jane approaches every story with the same dedication and conviction, whether it's a hard-hitting expose, or brings levity to the readers.

For example, in 2021 she tackled a lengthy, time consuming and critical story:

Police missteps leave Greater Victoria sexual assault survivor without justice.

She's also told the community about a chalk fairy who leaves heart-warming messages for cancer patients.

Sincerely,

Christine van Reeuyk
